## INTERSHIPS AND PROJECTS

Internships	<b>cadept techys</b> ( Duration July 2024 - August 2024 ) During my internship as a Web Development or Full Stack Development intern at Cadept Techys, I had the opportunity to gain hands-on experience in both frontend and backend development. I learned essential technologies like HTML, CSS, and JavaScript, which allowed me to build user-friendly and visually appealing websites. My focus wasn't just on the technical aspects, but also on creating designs that resonate with the target audience. One of my key projects was developing a clothing website named *Brown Dark*. This project was particularly meaningful because it was designed with a specific aesthetic in mind?pastel colors that are known to complement Indian men's skin tones. The goal was to enhance the shopping experience by offering a color palette that feels personalized and flattering. The project allowed me to combine my technical skills with design principles, and I took pride in creating a website that is both functional and aesthetically pleasing.
Projects	<b>Brown-dark clothing</b> ( Duration July 2024 - August 2024 ) Pastel colours themed clothing brand that very much suitable for Indian colour tone men
